

The Federal Communications Commission

Dear The Federal Communications Commission,

Please be fair with Americans. I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund which I would like to see repealed in its entirety. This is an intrusive policy which makes phone and cellular and pre-paid services less affordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, this unfair tax would become even more of a price burden. This tax is just a bad idea and is unfair to consumers and business alike!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits. I urge you to reject the proposal to move the USF collection system to a flat-fee or eliminate this unfair tax entirely.

Keep the USF Fair or just get rid of it!

Sincerely,

David Hanson
